

# CATTLE

## Liquid & Dry Micro Ingredient System

# PRO

### DEPENDABLE & ACCURATE

Own your wet/dry micro ingredient system and get away from expensive equipment lease agreements. Buy your drugs wholesale and experience a drastic cut in feed cost, per head.

### ADVANTAGES

- Bar coded confirmation of ingredients to assure they have arrived at the correct location.
- Lot tracking identifies ingredients' arrival and usage dates.
- Quality control and inventory is maintained by monitoring expiration dates through first in first out usage.
- Every transaction is Time & Date Stamped providing detailed reports of usage and production throughout the entire process.
- It is easy to maintain and use, delivering a quick return on your investment that only grows with time.

### STANDARD FEATURES

- Accurate weighing of dry micro additives
- Separate liquid scale for increased speed and accuracy
- Flush hopper with conveyor for complete clean out
- Modular construction for maximum versatility
- Pumping system uses less water than similar systems
- Variety of bin and scale sizes available
- Pre-wired and pre-plumbed for easy installation
- Available in 6, 8 or 10 bin configurations

PROCESSING THE INGREDIENTS FOR YOUR SUCCESS SINCE 1992

# WHAT ARE FEEDLOT MANAGERS SAYING?

"APEC's CattlePro Wet/Dry Micro scale has been an extremely worthwhile investment for Belle Plaine Colony. We are not tied to a drug purchase contract and the equipment that comes with it. We are free to source our drugs from any manufacturer we choose. The upfront expense of the purchase of the unit has been well worth it, as the return on our investment was very swift. Since changing to the APEC CattlePro we have seen a large drop in cost per head. The quality of the finished product and the savings in cost per head have made the APEC CattlePro a game changer for us."

Matthew Tschetter  
Belle Plaine Colony Regina SK, Canada
